Dear friends, colleagues and guests,

It's a pleasure for me to invite you to the 31st meeting of the Working Group on Prolamin Analysis and Toxicity to be held in Minden, Germany, from 28 to 30 September 2017. I am very grateful to our hosts Markus Brandt and Georg Böcker from Ernst Böcker company. Special thanks also to Judith Glögger from the German Coeliac Society (DZG) for managing the registration process. Last but not least I want to thank the sponsors that make this meeting possible. Except the executive part, the entire meeting is open for all invited speakers, guests and sponsors.

Please find enclosed the programme and information on location, hotel and travel arrangements, and please respond to the registration office in time using the registration form enclosed **no later than 15th June 2017**. Please note that registration is limited to 55 participants and that it is only valid after the registration fee has been paid before this registration deadline.

The Prolamin Working Group will take up discussions on analytical and clinical issues of gluten and coeliac disease as well as legal issues and the control of gluten-free food for people with gluten hypersensitivities. There will also be the possibility to visit the Böcker sourdough factory.

We shall have a symposium on "The role of intestinal microbiota in celiac disease" with three presentations from recognised experts in this field of research. In addition, there will be presentations on the state-of-the-art in liquid chromatography/mass-spectrometry in gluten quantitation.

All speakers should bring an electronic manuscript of their presentation in Word-format* (4 to 6 pages) to be included into the proceedings, which will be published as a full book. Many thanks to Dr. Schär for supporting the book!

Looking forward to meeting you all in Minden!

Freising, March 2017

Peter Koehler
